

LYONSHALL & PEMBRIDGE

CARE FOR YOUR COUNTRYSIDE

WEDNESDAY 24TH MAY
7.00 PM

Last year 15 local farmers formed a group to monitor and improve the health of streams and the countryside around Lyonshall and Pembridge.

We now invite you to a series of short presentations at **Lyonshall Village Hall** to explain what we are doing and what you can do to help both at home and in the garden

The local watercourses are failing water quality standards and this is affecting important wildlife species

Both domestic and agricultural sources of pollution contribute to this

We can all make a difference. Come along and find out how!

The Go Wild in the Curl Facilitation Project is supported by Natural England, the Environment Agency and The Wye and Usk Foundation
